

Department of Medicine

The Department of Medicine is the largest department at the University of Chicago Medical Center and in many ways, is the “drumbeat” of the institution. We push the boundaries of Chicago BioMedicine, through biomedical discovery – in delivery of cutting-edge research, high quality patient care and in the training of the next generation of academic leaders.

The Department of Medicine:

- > is an architect of biomedical discovery and among an elite group of academic medical centers leading in the delivery of personalized medicine
- > boasts nationally recognized clinical programs and is leading the way in translating laboratory findings into cutting edge clinical care
- > has one of the most respected and fastest-growing MD-PhD programs in the country
- > is committed to improving diversity among all its programs
- > is at the forefront of health disparities research and transforming how health care is delivered locally and nationally to diverse populations

CHICAGO **BIO**MEDICINE

Delivering personalized medicine and cutting-edge research
