

RESEARCH

Highlights

Research is a vital part of Chicago BioMedicine's mission. This past year saw discovery to be a driving force for our institution. Highlights include:

- > We achieved a national ranking by *U.S. News & World Report* of fifth in grant density per faculty member
- > We received the Clinical and Translational Science Award (CTSA), a \$23 million grant from the NIH to train scientists and health care providers at the university and in our community to determine the molecular underpinnings of disease or disease predisposition in any individual patient
- > We were awarded an \$18 million Systems Biology Award jointly funded by the NIH and the CBC
- > Jonathan Pritchard, PhD, was appointed as an Howard Hughes Medical Institute Fellow
- > Francisco Bezanilla, PhD was appointed as a member of the prestigious National Academy of Science
- > A series of large grants, including the Tumor Immunology Program Project grant, were rewarded or renewed
