

Parking Garage Construction Updates

From now until November 2017, the University of Chicago Medicine will be working to make improvements on the Parking A Garage, located at 5840 South Maryland.

However, there are more parking spaces for patients in the new Parking B Garage, at 5656 South Maryland. The Parking B Garage is just north of the Center for Care and Discovery.

If you have used Parking A Garage in the past for appointments and visits to the Mitchell Adult Hospital or the Duchossois Center for Advanced Medicine, please give yourself extra time in case Parking A Garage is full and you have to use the Parking B Garage.

Thank you for your cooperation and patience while we work to improve the University of Chicago Medicine's facilities for our patients.
