

August 25, 2017

Dear Patient:

This is an important update following the notice we sent you last month about the scheduled termination of IlliniCare Health, which was originally set for September 3, 2017.

We're pleased to share that we've reached an agreement with IlliniCare Health, and both The University of Chicago Medical Center and The University of Chicago Physicians Group will remain part of IlliniCare Health's network, which includes coverage for pediatrics, women's health, the Integrated Care Program, the Medicare-Medicaid population, and transplantation.

This means our relationship with you remains unchanged.

Our nationally recognized hospital and physicians look forward to continuing to provide you with exceptional medical care. If you have additional questions or concerns, please contact our Office of Managed Care at 773-834-4730 or via email at [managed.care@uchospitals.edu](mailto:managed.care@uchospitals.edu).

We are honored to be part of your health care family. Thank you for entrusting us with your medical care.

Sincerely,

The Office of Managed Care  
The University of Chicago Medical Center
