Join other elected officials, legislative staff, and health policy representatives for an event that depicts the challenges and accomplishments of one of the country’s leading hospitals.

In one event-filled day, you’ll get a behind-the-scenes look at how the University of Chicago Hospitals provides health care to a diverse group of patients. You’ll hear how medical breakthroughs happen via years of research. And you’ll tour our facilities, seeing the action and the human stories that occur every day here. Join us!
Event Dates
Monday, June 7 (registration closes May 28)
Monday, October 4 (registration closes September 24)

All events are held in Chicago, Illinois at the medical campus of the University of Chicago Hospitals.

Mini-Medical University Event Itinerary

- Enroll alongside other elected officials and staff and start Mini-Medical University as a first-year medical student
- See what it means to be a health care safety net provider
- Learn about the clinical and translational research that’s bringing medicine “from bench to bedside”
- Witness firsthand the medical breakthroughs that are changing the face of medicine
- Navigate the financial maze of Medicare, Medicaid, and other government funding in Finance 101

“Through the tours, the demonstrations, and the discussions, I saw our constituents as patients. I now know that health care means more than just a visit to the doctor.”

Derrick Bright
Office of Congressman Bobby Rush

Take an inside look at a major academic medical center. Attend the University of Chicago Hospitals’ Mini-Medical University.

Don a ceremonial white doctor’s coat, meet our physicians, and tour our state-of-the-art hospitals.

“At the University of Chicago Hospitals, I was able to observe the entire health system, rather than just one specific issue. Overall, it helped me better understand the complexities of health care delivery.”

Jill Janovetz
Office of Congressman Ray LaHood

Whether it’s health costs, health coverage, or health access, everyone is talking about health care.
